ANGLING FOR A HUSBAND.

"M. H B," the sprightly New York correspondent of the St. Louis Republi an, furnishes the following

"In a Fifth avenue boarding house of great pretentions, dwells a Mrs Hand a Mrs E -- , two arry females, who live for no other purpose than to see other folks' clothes, and get new ones for themselves. A gentleman boarder had business with a very wordthy, plain old fellow, and for a few mocks had burn to head in the weeks had him to board in the house His common clothes and clumsy mahners afforded vast amusement to the two fair ladies They to beed and grimaced at almost every move the old man made till at last the worthy man's patron thought he'd turn the tide. - He en countered Mrs H, and in a cateless way he introduced the subject, regretting that Mr -- did not take more pains with his costume, he being one of the solid men of Wull street, worth in the neighborhood of five or six millions The bast took The other lady asked a confederate of the first gentleman if it was really possible Ar --- was worth that much, and the party addressed and he thought that large fortunes were us ually overestimated, but he presumed were he forced to sell, he would come out with three or four millions from his stocks, about his real estate. He knew

nothing That night at differ the two lades were effusive in their attention. The old gentlem in presed most of the evening in the private purler of one of them, the most bonored of the many guests One of the ladies had him out to ride

in her vehicle, and after a few days poor to it discuss of the favor Stems Spices

DECATUR, ILLINOIS: Saturday, Evening May 22.

THE High School Committee of Milwankee, is a sonsible body; at least it has recommended that Greek be entirely dropped from the course of study, Third Day of Judge Poras the classes are not large enough to justify the expense. The committee also recommends that a greater prominence be given to instruction in the English language, in composition, apalysis, structure, &c.

Some people are disposed to complain at the chilly winds that have come with the usually pleasant month of May, but really, when we read of blinding anow storms in other sections of the country, we think this section has reason to be grateful for the comparatively pleasant weather with which we have been blessed. On Saturday last a snow storm raged in Canada and northern New York, and it was really a severe winter storm, although it came in the month of flowers and balmy breezes.

Jumped the Train.-Yesterday evening as the Chicago excursion train was running at the rate of thirty or forty miles per hour between Chicago and Joliet, a stranger on board was seen to jump from one of the care, and as he fell and did not get up while he was in sight, it is supposed that he was killed er badly hurt. A few moments before he made the fearful jump he was heard by mistake, and the supposition is that he jumped from the care to avoid being carried farther in a wrong direction. -As the train did not come to a halt nothing was learned as to the fate of the unfortunate man. We shall look for something in the Chicago papers of today that will throw light upon that sub-

THE CHICAGO EXCURSION.

The excursion party which went to Chicago on Thursday, under the auspices of the Stapp's Chapel congregation, returned at an earlyshour this morning.-From those who accompanied the party we learn that the trip to Chicago was it every respect a pleasant one, the run being made in about eight hours. . Upoh? to say that he had taken the wrong train reaching Chicago, at 3:30 p. m., the ex-by mistake, and the supposition is that -some to shop, some to visit friends, some to stroll about and admire the wonders of rebuilt Chicago. In the evening the places of amusement were visited by many of those who rarely get to see anything in the shape of a theater beyond what our little opera house affords. (It is only fair to add, in this, connection, that the play-goers referred to belonged exclusively to the "wicked and ungodly" portion of the party—the more sedate ones going to hear Anna Dickinson on "Dry Rot," &c.

> day, was abandoned, on account of the difficuly experienced in selling tickets enough to warrant the committee in chartering the steamer. At 4:30 p. m., yesterday, the excur-

The proposed lake excursion, on Fri-

sionists started on the return trip, and arrived at the depot in this city about 3:30 this morning. After the starting of the party from

Decatur on Thursday morning, and ever since, the wildest rumpes have been current with regard to logal difficulties in which the committee of arrangements were said to be involved. It was reported on Thursday that the train had been attached at Atlanta, and sundry other rumors of like character were flying about among our people. After a good deal of persistent inquiry, and after interviewing a number of different people, we have gleaned the following facts, which, according to the best understanding we can get, represent the true state of the case: Some days before the starting of the

excursion a garnishee process was served upon the committee, under and by virtue of some of the numberless executions which hang over the Illinois Midland Railway Company. The fact was kept quiet lest it might interfere with the success of the excursion, and the officers of the company were not notified of the state of the case until the train was about ready to start on Thursday. No difficulty was experienced, however, until the train arrived at Atlanta last night, about 114 o'clock, where it was met by Charles II. Brown, agent of the company at this city, who notified the committee that he was authorized to demand of them the contract price for the train. Several telegrams passed between the committee and Supt. Hitchcock, imute diately upon the making of the demand by Mr. Brown. The committee insisted that they could not pay the amount without disregarding the garnishee summons, and thereby rendering themselves liable, while the superintendent was firm in his decision to hold the train unless the money was paid. The committee were given the choice to pay the amount in full, or pay full face for the whole party from Atlanta to Decatur, and in case of their failure to accept one or the other thorn of this dilemma the train would be sidetracked. Not being willing to squander so much money without any prospect of getting it back lands at 35 cents an acre will please call the committee refused to comply with at once and arrange with Mr. Durfee cither proposition of the superintendent, and the order was given to run the train on the sidetrack. Things had now come to a pretty pass. Four orfive hundred people were on the train, forty miles from home, tired, cold, (for it had wagon loads of railread builders passed been raining nearly all day) hungry'and through towa this morning pointing sleepy, and they had begun to find out

the western part of this state, and are There was danger of empleasant consequences, and the amorney They had fine looking teams, and were charge of the garnishee suits, E. S. Mc-Donald, being on board the train he was hunted up and persuaded to dismiss them so as to allow the party to get home without further delay. When he had point where a job offers. The party was agreed to do this a check was given by the committee to the railroad company, the order to sidetrack was countermanded from the superintendent's office at Terre Haute, and the train came on to Decatur, having been delayed at Atlanta about a bour.

PERSONAL MENTION.

Mr. W. J. Taylor, of this city, left this morning for Charleston, where he will remain several days visiting rela ives and friends.

From the "Monthly Weather Review," published by the Chief Signal Officer U. S. Avmy, I make the following synopsis and extracts in regard to the month of April, and a comparison of that month, and the past winter with observations for a number of years:

a number of years:

By table of comparison of April, 1875, with many years, we learn that the range of temperature throughout the U.S. was from 1 to 6.8 below the average, with the exception only of the Pacific censt, where the range was 2.6 degrees above the average. Bays the Chief Signal Officer: "The lateness of the spring, the prevalence of severe frosts and the injury to vegetation have been among the most obvious features of this month's weather. * * * April 23d, frost was reported at Knoxville. At Norfolk, on the 17th, there was a heavy frost, which was reported as very disastrons to peas, strawherries and peaches. On the 18th and 19th another heavy frost (thermometer 27) fell at Norfolk, nearly destroying the pears, plums and cherries.

pears, plums and cherries.

At Nashville, Tenn., on the 17th, thermometer fell to 25.5, forming ice 1-8 of an inch thick, seriously injuring vegetation and killing many truit trees. There was frost at Leavenworth, Kausas, on the 16th, and snow at Lynchburg, Va., on was frost at Leavenworth, Kangas, on the 16th, and snow at Lynchburg, Va., on the 17th, and froezing weather nearly all day on the 18th, causing great loss of all kinds of early fruit and early wheat. Frost occurred at Wytheville, Va., on the 22d, 23d and 24th; at Charleston, S. C., on the 19th (heavy); at Aikea, S. C., on the 17th and 18th; at Mobile, on the 3d; heavy frost at Savannah, Ga., on the 18th and 19th, with ice hearly half an inch thick on tranquil poets in the country.—Light frost was deposited at Augusta, Ga., and Wilsonville, Ala., on the 17th and 19th. On the interior lakes of Now York and in the Adirondacks, it is reported at fer emplained two to three feet thick as late as April 15th. Frost was reported at Brookhaven Miss. on the 24th flatest known): light foot on the 18th at Mayont. Brookhaven, Miss., on the 24th (latest known); light frost on the 18th, at Mayport, Florida, and on the 24th, at Troy, Ala.; at St. Marks, Florida, on the 18th, and on the 19th, at Wellborn, Florida." [At Decatur it will be remembered, on the 16th, 17th and 18th, ground froze to the depth of 2½ inches; freezing all through the day

on the 17th.]

From table of the coldest winters since 1812, we make the following deductions: December, 1874, was exceeded in coldness only by Dec., 1836, and 1871;
January, 1875, only by January, 1856. February, 1875, the coldest for 63 years:

March, 1875, only by January, 1896. February, 1876, Ind. cottest for 65 years; March, 1875, exceeded only by that month in the years 1856 and 1872.

Average mean temperature for the past winter, including the months of December, January, February and March—below any since 1812. This was also the case for the mean of January and February; also mean of December, January and February. J. STEBBINS KING, M. D.,

DECATUR. ILLINOIS: Saturday, Evoning May 22.

THE High School Committee of Milwaukce, is a sensible body; at least it has recommended that Greek be entirely dropped from the course of study, Third Day of Judge Por- sian is very great, and the telegraph as the classes are not large enough to justify the expense. The committee also recommends that a greater prominence be given to instruction in the English language, in composition, apalysis, structure, &c.

SOME people are disposed to complain at the chilly winds that have come with the usually pleasant month of May, but really, when we read of blinding snow storms in other sections of the country, we think this section has reason to be grateful for the comparatively pleasant weather with which we have been blessed. On Saturday last a snow storm raged in Canada and northern New York, and it was really a severe winter storm, although it came in the month of flowers and balmy breezes.

NEW YORK, May 21 -In the Beech er trial this morning, Porter continued summing up for the defense. He said he would call the jury's attention to Bowen's testimony. Beecher test fied that when Bowen presented Tilton's demand on him (Beecher), Bowen and he had a conversation about Tilton's immoral character. Beecher said he communicated to him what he had heard from Mrs. Tilton, and what was disclosed in conversations which occurred between him and Bessie Turner. Counsel commented on the fact of

TYRONE, PA, May 21.-The confulines are so busy that no further news of the Occola fire can be obtained Hundreds of people are homeless and destitute of clothing and provisions. The burgess of Huntington was telegraphed this morning for food and clothing for the sufferers. Relief is badly needed. A large number of cars and many feet of treatle work on the railroad have been destroyed, and the shipment of coal will be delayed for at least ten days. The total insurance reported amounts to nesrly \$100,000. A fire is raging in the woods at Snow Shoe City, where several houses, a number of cars and trestle work are destroyed. The loss is s'ill given at

\$2,000,000. Tyrone, PA., May 21.—The fire is Mills, Pa. About 250 houses were d in Osceola, and 400 families rendered homeless. Great praise is due Mr. D. D. Wood, Train Master, at Tyrone, who, through his heroic conduct and presence of mind, saved a great many lives. He got a lot of box cars, and, aiter loading them with men, women and children, sent them through the burning forest at the extremity of fest speed to Phillipsburg. Four such trips

taken to a place of safety. Houtzdale, a town of about 900 in nabitants, six miles f.om Osceola, is re ported entirely destroyed. The fire is preading rapidly through the woods eyond Houtzdale. At latest accounts the fire has reached Parsonville, a small town six miles from Houtzdale. The ties on the railroad from Osceola to Houtzdale are burned so that coal can not be shipped for some time. Provisions have been sent from homes in the vicinity, and a meeting will be held to aise funds.

The heaviest losers by the Osccola fire are: Pennsylvania railway, \$65,-000: Liveright, Lingle & Co., \$30. 000; Heims & Co., \$30,000; J. K. White, \$25,000, and numerous other losses ranging from \$8,000 to \$20,000, and hosts of smaller amounts.

The insurance in the Osceola mills will reach \$200,000 outside the Moss hannon land and lumber company's mills. Moshannon mill is placed in the Philadelphia. ,The insurance will reach \$300,000 Later reports say one woman named Stoneberger was burned to

Great Popularity .- Dr. Price's Cream Baking Powder and True Flavoring Exracts, Nectarine, Rose, Lemon, etc., have been before the public many years and have gained for themselves, on their own merits, an extensive sale. Their great popularity is mainly due to the crupulous manner in which they are prepared, the using of the purest and of the best brands of American watches heet materials with enecial reference to their healthfulness. We never tire of using them, for they are always the same. Articles in which they are used still raging furiously throughout the woods, in the neighborhood of Osceola but are always enjoyable.

Temperance Lecture. - On Monday evening next Dr. R. N. Davies, of Paris, will lecture on Temperance, at the court house. Dr. Davies is a profound thinker and an eloquent speaker, and as a controversialist, has probably no superior in the State. In procuring his services to lecture on Temperance, the friends of the cause have done a good thing for their side of the question, as it would were made, and about 1,000 people be difficult for them to find a more able advocate and champion. Now, then, that they are to have a lecture from a man who is capable of doing honor to any cause he may espouse, we hope a special effort will be made to give him a full hearing.

Jumped the Train.-Yesterday evenng as the Chicago excursion train was running at the rate of thirty or forty miles per hour bet cen Chicago and Joliet, a stranger on board was seen to jump from one of the care, and as he fell and did not get up while he was in sight, it is supposed that he was killed er badly hurt. A few moments before he made the fearful jump he was heard to say that he had taken the wrong train by mistake, and the supposition is that he jumped from the cars to avoid being carried farther in a wrong direction .-As the train did not come to a halt nothing was learned as to the fate of the unfortunate man. We shall look for something in the Chicago papers of today that will throw light upon that sub-

A Private Match.-Yesterday afternoon several of the members of the Decatur Shooting Association met, and got up a private shooting match. Only enough birds were on hand to allow four marksmen 13 birds each. R. V. Baker, Dr. Waddams, Al. Locke, and Charley Caldwell were the contestants. The niarksmen separately took their stations at a distance of 21 yards from the trap, and fired at the birds as they were thrown up, with the following result:

Baker, out of 13 birds, 9. Waddams, " " A. Locke, " " Caldwell.

That Dr. Waddams is the best marks man in the city has long been conceded. and should be enter the contest for the prize medal at the next regular match with the Association, he would in all probability come off the winner. Mr. Caldwell, by his scores in the last

few contests for the medal, has proved conclusively that he is a "good shet."

Dr. R. N. He has successfully coped with some of the strongest minds, and as a able debater has a reputation of the first order. He will be particularly desirous of seeing at his lecture those who hold views opposite to his own on the temperance question. THE CHICAGO EXCURSION.

The excursion party which went to Chicago on Thursday, under the auspices of the Stapp's Chapel congregation, returned at an earlyshour this morning.-From those who accompanied the party we learn that the trip to Chicago was in every respect a pleasant one, the run being made in about eight hours... Upon reaching Chicago, at 3:30 p. m., the excursionists scattered throughout the city -some to shop, some to visit friends, some to stroll about and admire the wonders of rebuilt Chicago. In the evening the places of amusement were visited by many of those who rarely get to see anything in the shape of a theater beyond what our little opera house affords. (It is only fair to add, in this, connection, that the play-goers referred to belonged exclusively to the "wicked and ungodly" portion of the party-the more sedate ones going to hear Anna Dickinson on "Dry Ret," &c. The proposed lake excursion, on Friday, was abandoned, on account of the difficuly experienced in selling tickets

enough to warrant the committee in chartering the steamer. At 4:30 p. m., yesterday, the excursionists started on the return trip, and arrived at the depot in this city about 3:30 this morning.

After the starting of the party from Decatur on Thursday morning, and ever since, the wildest rumors have been current with regard to legal difficulties in which the committee of arrangements were said to be involved. It was reported on Thursday that the train had been attached at Atlanta, and sundry other umors of like character were, flying about among our people. After a good deal of persistent inquiry, and after interviewing a number of different people we have gleaned the following facts, which, according to the best understand-

ing we can get, represent the true state

Some days before the starting of the excursion a garnishee process was served upon the committee, under and by virtue of some of the numberless executions which hang over the Illinois Midland Railway Company.. The fact was kept quiet lest it might interfere with the uccess of the excursion, and the officers of the company were not notified of the state of the case until the train was about ready to start on Thursday. No difficulty was experienced, however, until the train arrived at Atlanta last night, about 114 o'clock, where it was met by Charles H. Brown, agent of the company at this city, who notified the committee that he was authorized to demand of them the contract price for the train. Several telegrams passed between the committee and Supt. Hitchcock, immediately upon the making of the demand by Mr. Brown. The committee insisted that they could not pay the amount without disregarding the garnishee summons, and thereby rendering themselves liable, while the superintendent was firm in his decision to hold the train unless the money was paid. The committee were given the choice to pay the amount in full, or pay full fare for the whole party from Atlanta to Decatur, and in case of their failure to accept one or the other horn of this dilemma the train would be sidetracked. Not being willing to squander so much money without any prospect of getting it back the committee refused to comply with either proposition of the superintendent, and the order was given to run the train on the sidetrack. Things had now come to a pretty pass. Four or five hundred people were on the train, forty miles from home, tired, cold, (for it had wagon loads of nailread builders passed been raining nearly all day) hungry'and

quences, and the attorney who had attendance. Admission 10 cents. charge of the garnishee suits, E. S. Mc-Donald, being on board the train he was hunted up and persuaded to dismiss them so as to allow the party to get home They will drive their stakes at the first without further delay. When he had agreed to do this a check was given by the committee to the railroad company, the order to sidetrack was countermanded from the superintendent's office at Terre Haute, and the train came on to cialty. Decatur, having been delayed at Atlanta about a hour.

PERSONAL MENTION.

Mr. W. J. Taylor, of this city, left this morning for Charleston, where he will remain several days visiting relatives and friends.

Chas. A. Fuller, Esq., left yesterday a reasonable price. [sept 1-dlm for a business trip to Washington. From thence he will go to Florida, to visit his his sons, Charles and Richard, who are making an orange plantation in that state. Mr. Fuller has promised to write us one or more letters from "the land of flowers" and we trust he will not forget to do so.

A Scandal.-We have been requested by a number of our colored citizens to state that the Rev. Charles Jacobs is no "dead-beat," as was falsely stated in a recent issue of the Sun. On the contrary, Mr. J. is an honest, candid minister, and would scorn to do a mean act .-The Sun editor is either "mistaken in the man," or has published what he knows to be a malicious falsehood. Mr. Jacobs left this city three years ago to seek a new field for labor. He has been preaching to the colored men of Milwauready-made boots and snoes. He is also prepared to fill all orders for custom-work in a manner that cannot fail to satisfy any who leave their measure with him.

From the "Monthly Weather Review," published by the Chief Signal Officer

U. S. Army, I make the following synopsis and extracts in regard to the month of April, and a comparison of that month, and the past winter with observations for

19th another heavy frost (thermometer 27) fell at Norfolk, nearly destroying the pears, plums and cherries.

At Nashville, Tenn., on the 17th, thermometer fell to 25.5, forming ice 1-8 of an inch thick, seriously injuring vegetation and killing many fruit trees. There was frost at Leavenworth, Kansas, on the 16th, and snow at Lynchburg, Va., on the 17th, and freezing weather nearly all day on the 18th, causing great loss of all kinds of early fruit and early wheat. Frost occurred at Wytheville, Va., on the 22d, 23d and 24th; at Charleston, S. C., on the 19th (heavy); at Aiken, S. C., on the 17th and 18th; at Mobile, of the 3d; heavy frost at Savannah, Ga., on the 18th and 19th, with ice nearly half an inch thick on tranquil pools in the country.—Light frost was deposited at Augusta, Ga., and Wilsonville, Ala., on the 17th and 19th. On the interior lakes of New York and in the Adirondacks, it is reported ice remained two to three feet thick as late as April 15th. Frost was reported at Brookhaven, Miss., on the 24th (latest known); light frost on the 18th, at Mayport, Florida, and on the 24th, at Troy, Ala.; at St. Marks, Florida, on the 18th, and on the 19th, at Wellborn, Florida." [At Decatur it will be remembered, on the 16th, 17th and 18th, ground froze to the depth of 2½ inches; freezing all through the day on the 17th.)

From table of the coldest winters since 1812, we make the following deductions: December, 1874, was exceeded in coldness only by Dec., 1836, and 1871; January, 1875, only by January, 1856. February, 1875, the coldest for 63 years; March, 1875, exceeded only by that month in the years 1856 and 1872.

Average mean temperature for the past winter, including the months of December, January, February and March—below any since 1812. This was also the case for the mean of January and February; also mean of December, January J. STEBBINS KING, M. D.,
